

01 June 2018

**DANILO DOMINGO**

President

Association of Structural Engineers of the Philippines

Dear **President Domingo**,

The Department respectfully informs you of the outcomes of the **Stakeholders' Forum on Quenched and Tempered Steel** last 11 May 2018 from 11:00 AM to 3:00PM at the AVR, BOI Penthouse, Industry and Investments Building, 385 Sen. Gil Puyat Avenue, Makati City.

As part of the department's vision to protect and empower consumers, we regularly conduct assemblies and consultations to strike a balance among our stakeholders. While there is a need to have this discussion among involved parties, we hope to move forward on the matter and arrive at a unified approach, not only to create guidelines on QT steel but also to allay the fears of our consumers.

Attached is a copy of the report of the Department's Bureau of Philippine Standards based on our consultations, researches, position papers, studies, and other relevant documents for your reference.

Very truly yours,

A handwritten signature in blue ink, appearing to read 'Ramon M. Lopez', written over the printed name.

**RAMON M. LOPEZ**  
Secretary

*Enabling Business, Empowering Consumers*
